

Workbooks Price List

(Effective: 1st November 2014)

The Workbooks service is typically purchased on a one, two or three year subscription.

Workbooks Editions Different editions may be purchased for different users if required		
Edition	Description	Price per user
Workbooks CRM	Marketing, Sales Force Automation & Customer Support, Pricing Schemes	\$360 per annum (\$30 per month)
Workbooks Business	CRM Edition + Sales Order Processing, Purchase Ordering, Invoices & Credit Notes	\$840 per annum (\$70 per month)
Workbooks CRM Pro	CRM Edition + Multi-Currency, Audit, Multi-Company, Advanced Security & Contracts	\$600 per annum (\$50 per month)
Workbooks Business Pro	CRM Business + Multi-Currency, Audit, Multi-Company, Advanced Security & Contracts	\$1032 per annum (\$86 per month)
Workbooks Extensions Extensions must be purchased for all licensed users		
Extension	Description	Price per user
Multi-Currency	Enables you to create transaction documents (e.g. quotations and orders) in multiple currencies and automatically convert the amount into your 'home' currency for reporting.	\$78 per annum
Audit	The Audit extension audits every change to a record including changes to individual fields within a record. This enables you to see which changes a user has made to a record. The Audit module can also be used to track the status of a record as it moves through a life cycle. So you can for example, report on all cases which have been in a specific state for a time period. This is often used to track SLA metrics.	\$78 per annum
Multi-Company	Enables you to add multiple 'own organisations'. Own organisations are typically used to support different VAT schemes, important if you invoice in multiple regions.	\$78 per annum
Advanced Security	This enables you to change the sharing policy so you can restrict access to specific records. This is most commonly used if you want to allow some users to see some records but not all. For example, the UK sales team can see UK Opportunities, but not US Opportunities.	\$78 per annum

Workbooks Modules Modules can be purchased for those users who need them.		
Outlook Connector	A plug-in for Microsoft Outlook that allows you to synchronise contacts and tasks between Workbooks and Outlook and also enables you to share emails from Outlook into Workbooks with a single click.	\$78 per annum
Contracts	Create contract records and raise cases against specific contracts and contract line items.	\$78 per annum
Additional Storage	Each paid account is provided with 10GB of storage. If you need more storage you can purchase it in 5GB increments e.g. 5GB, 10GB etc.	\$3.25 per GB per month
